

# Connections in the Critical Zone:

July 10th & 11th, 2023 – Dickinson College, Carlisle PA

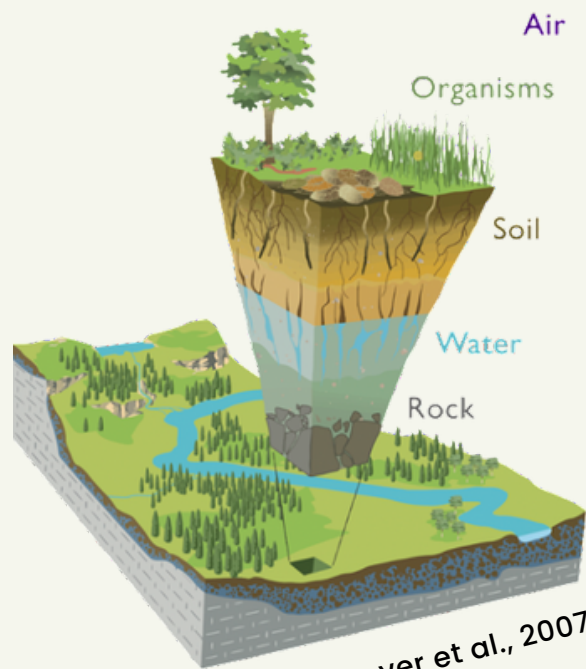

The Critical Zone (CZ) spans from the tops of the trees to the bedrock below our feet. This place-based workshop will combine geology, ecology, pedagogy & more to offer educators a new perspective on this important layer of our planet.

Connect Earth Science concepts to NGSS and real research happening in the scientific community. Bring lesson plans, new concepts, and exciting connections back to your classroom.

\$400 stipend  
coffee & lunch provided

Applications are now open!
