Meeting ID: 956 2990 4032
Passcode: 851695

August 3

8:00 a.m. Field trip – follow up discussions

8:30 a.m. Advisory Committee report out

8:45 a.m. Opportunities for future collaborations

9:15 a.m. NSF is funding a 2-3-day workshop to be held in middle of September - October 2022; dates coming soon. The purpose of the workshop is to generate potential solutions to pressing water resource issues that can effect change within three years. Invitees to the workshop likely will include academics, agencies, non-profits, environmental managers, and start-up companies.

The goal of the August 3 session with CZNet Thematic Cluster scientists is to identify areas where CZ science is primed to support solutions and to work on identifying “convergent” teams that could help make these ideas a reality.

This session will be led by Pam Sullivan and will include a series of breakouts that might address:

- Workshop scope
- Key issues and potential outcomes
- CZNet staff who can support the effort
- Workshop invitees

12:00 p.m. Adjourn
